

Reading

Read the text and choose the correct answer. Choose A, B or C.

Inventions are important because they help people understand how things work and make daily life easier. Every invention has a clear **purpose** and a special **function**. To **invent** or **create** something new, a person begins with an idea. After that, a detailed **design** is made, and a careful **process** is followed to build it.

Most inventions use a simple **mechanism** to operate. For example, when a **button** is pressed, the machine starts and uses **power**. Many devices need **electricity**, and it must be carefully controlled to keep the invention safe.

Some inventions were invented many years ago, but they have **changed** the world. They help people **communicate**, work faster, and live better. Today, modern inventions are created to **improve** life and solve problems. Good **design** and clear **purpose** help inventions succeed and make a difference in the world.

Choose the correct answer.

1. **What is the main idea of the text?**
 - a) How inventions work and improve life
 - b) How inventions are advertised
 - c) How inventions are broken
2. **What is needed before you create an invention?**
 - a) Electricity
 - b) An idea
 - c) A button
3. **What helps a machine start working?**
 - a) A button
 - b) A purpose
 - c) A design
4. **Why must electricity be controlled?**
 - a) To save money
 - b) To make the invention safe
 - c) To change the process
5. **What do inventions help people do?**
 - a) Sleep more
 - b) Communicate
 - c) Stop working
6. **What have inventions done to the world?**
 - a) Changed it
 - b) Stopped progress
 - c) Made it smaller
7. **What does the word "mechanism" mean in the text?**
 - a) A system of parts that makes something work
 - b) The price of something
 - c) The color of something
