THE CREATURE IN THE WARDROBE

Last night, Daniel was sitting on his bed, reading a book. Around 10 o'clock, he heard a very strange scratching noise. The noise was very close to him and it sounded like it was coming from inside Daniel's room. Daniel looked around his room but he couldn't find where the noise was coming from, so he continued to read his book and then he fell asleep.

Suddenly, in the middle of the night, Daniel jumped out of his bed because he heard the strange noise again. This time, however, the noise was louder. He turned on all the lights and searched his room again but he didn't find anything. The next morning, Daniel woke up and opened his wardrobe to look for his favourite sweater. As he was looking for his sweater, the scratching noise started again. At this point, Daniel started to feel nervous and even a little scared. He found his sweater on the bottom of the wardrobe and reached for it, but the sweater started to move. Daniel screamed and then he saw his black cat, Tabby, coming out from under his sweater.

Apparently, Tabby went into Daniel's wardrobe the night before and when she couldn't get out, she started scratching at the door. Daniel was very relieved when he realised that it was only his cat making the noise and not something scarier. Though Daniel was a brave young man, this was one experience that really made him nervous.

- 2 He heard a strange scratching noise at night.
- 3 The noise was coming from inside his parents' room.
