**Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 31 to 36.**

In recent years, environmental protection has become a global concern. Human activities such as deforestation, pollution, and excessive use of natural resources have led to severe environmental issues. One of the most **pressing** problems is climate change, which is primarily caused by the overuse of fossil fuels. Greenhouse gases like carbon dioxide trap heat in the atmosphere, causing the Earth's temperature to rise.

Governments around the world are making efforts to address *these* by focusing on renewable energy and reducing plastic waste. Many are investing in renewable energy sources such as solar and wind power to reduce reliance on fossil fuels. Recycling programs and campaigns to reduce plastic waste are also growing. However, these solutions require the cooperation of individuals as well. Simple actions like reducing waste, saving energy, and using eco-friendly products can make a big difference.

The key to environmental protection lies in the actions of both governments and individuals. Only by working together can we hope to *preserve* the Earth for future generations.

**Question 31.** *What is the best title for the reading text?*

- A. The Causes of Climate Change
- B. Solutions for Renewable Energy
- C. Environmental Problems and Solutions
- D. The Role of Individuals in Recycling
