The Desert

Some deserts have sand, others have rocks or mountains. There are also deserts with ice and snow. In sandy deserts, the wind makes sand dunes. They can look like mountains.

It is usually very dry in the desert, but plants and animals need water. Some plants, like a cactus, keep water in their stems.

Desert animals don't drink a lot. Camels sometimes don't drink water for a week. This is why people travel on camels in the desert.

3 Write T (true) or F (false).

1. It is always hot in the desert. F
2. There are sand dunes in snowy deserts. _____
3. There is water in a cactus stem. _____
4. Camels don't drink water for a month. _____

4 What do you know about desert animals? Make a poster.

5 Look and color.
