- 2 What information would you include? _____
- 3 Would you make a recommendation? _____

2 Read the example letter. Answer the questions.

Hi Beatriz

I'm sorry to hear that you're dealing with anxiety. It's a horrible feeling, isn't it? School can be one of the most stressful times in our lives. Balancing homework, extracurricular activities, and social life can be stressful. In a nutshell, it's not surprising that lots of teenagers like us feel anxious about it.

There are several ways to deal with school-related anxiety. Firstly, asking for support from a teacher or trusted adult can help with the pressure. I find that working on my time management and taking regular breaks can help reduce stress. Another effective strategy is practising mindfulness techniques such as meditation or deep breathing exercises.

Anyway, of all the ways to deal with school-related anxiety, I think you should try practising mindfulness techniques. These techniques can be done anywhere and anytime, especially if you download an app to your phone.

I hope that you find these suggestions useful.

- 1 How many suggestions has the writer made?
- 2 Do you agree with her recommendations?

3 EXAM Read another exam task. Write your reply in 140–190 words in an appropriate style.

Hello! I've just started studying remotely and I'm finding it difficult. I miss being in the classroom and my friends, and it's making me feel quite sad. Do you have any suggestions on dealing with these negative feelings?

Thanks,

Kelly
