Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks.

Technology has become an integral part of our daily lives, transforming how we communicate, work, and solve problems. From smartphones to artificial intelligence, (18) _____ have reshaped the way we interact with the world. Some technologies, like the internet and renewable energy, have become indispensable, while others continue to push the boundaries of what's possible.

(19) _____ is essential for addressing the challenges of the 21st century. Innovators around the world are constantly developing new tools and improving existing ones to make life more efficient and sustainable. Having dedicated years to research and development, they have paved the way for a future filled with endless possibilities. We must recognize the transformative power of technology in every aspect of our lives. For example, advancements in healthcare technology have improved diagnosis and treatment, while automation has revolutionized industries. However, over-reliance on technology can also lead to issues like privacy concerns or job displacement.

Despite these challenges, the benefits of technology are undeniable. It has connected people across the globe, enhanced productivity, and provided solutions to complex problems. By (20) _____, we can ensure that technology continues to drive progress and improve lives for generations to come.
