think - suggest - should - thank - sounds - suggestions

Dear.....

(1)..... You for your suggestions. I am really excited about the British students' visit, and I think we'll have a lot of fun.

I'm glad that you liked the idea about the dhow tour. Driving to Purple Island instead of the helicopter ride (2)..... great because it won't be very expensive. I also like the desert camping idea, but I (3)..... it will be difficult to organize.

I (4)..... going on a day trip to the desert. There are some great tours available which offer sandboarding and camel rides. Also, I think that we (5)..... take the group to the MIA Museum so that they can learn about the Qatari culture.

Please tell me what you think of these (6)..... If we decide to go on a day trip to the desert, we will have to book in advance.
