

A life in the city

- a Our food bills are very high.
- b the cost of living is high here.
- c We have gas central heating to heat our apartment.
- d our gas bills are quite high, especially in winter.

I live in a high-rise apartment block in Santiago. 1 Natural gas is expensive, so 2 Living in an apartment block means we don't have a garden, so we don't grow any of our own fruit or vegetables.

When you consider people's salaries, 3 We try to buy all our fruit and vegetables from the local market. We buy everything else from a supermarket. 4
