GE8 WRITING REVISION

You should write 140–190 words. You have seen this notice in an environmental magazine:

"Many countries rely on fossil fuels for energy, but renewable energy sources are becoming more important. Some environmentalists believe governments could have done more in the past to prevent energy crises. Others argue that switching to renewable energy will take time."

Write an email to the editor in which you:

- Discuss the advantages and disadvantages of fossil fuels and renewable energy sources.
- Explain what governments or people **could/should have done in the past** to improve energy use.
- Suggest actions for the future so that energy use is more sustainable.

Use **connectives** (such as although, however, therefore, so that, while, whereas, in order to, despite/ in spite of) to organize your ideas.

Include **past modals** (should/shouldn't, ought to/oughtn't to, could/couldn't have + past participle).

LIVEWORKSHEETS

You must write a story (140-190 words) for a writing competition. Your story must begin with this sentence:

When we got out of the car, it was freezing.
