

SUSTAVI LINEARNIH JEDNADŽBI S DVIJE NEPOZNANICE

Riješite sljedeće matematičke probleme.

$$\begin{aligned} \text{Watermelon slice} + \text{Watermelon slice} + \text{Watermelon slice} &= 27 \\ \text{Watermelon slice} + \text{Apple} &= 14 \\ \text{Watermelon slice} + \text{Strawberry} &= 12 \\ \text{Watermelon slice} + \text{Apple} - \text{Strawberry} &= \end{aligned}$$

$$\text{Blue star} + \text{Red square} = 24$$

$$\text{Blue star} - \text{Red square} = \text{Red square}$$

$$\text{Blue star} =$$

$$\begin{aligned} \text{Dog} \times \text{Dog} &= 16 \\ \text{Dog} \times \text{Cat} \times \text{Cat} &= 36 \\ \text{Dog} \times \text{Cat} \times \text{Parrot} &= 72 \\ \text{Dog} + \text{Cat} + \text{Parrot} &= \end{aligned}$$

$$\text{Orange} + \text{Strawberry} + \text{Strawberry} = 43$$

$$\text{Watermelon slice} + \text{Orange} = \text{Orange}$$

$$6 + \text{Orange} = 46$$

$$\text{Watermelon slice} + \text{Watermelon slice} + \text{Orange} = 29$$

$$\text{Orange} + \text{Strawberry} + \text{Orange} \times \text{Watermelon slice} =$$

$$\text{Orange} + \text{Orange} + \text{Orange} = 36$$

$$\text{Orange} + \text{Grape} + \text{Grape} = 32$$

$$\text{Grape} - \text{Watermelon slice} = 2$$

$$\text{Watermelon slice} + \text{Grape} \times \text{Orange slice} =$$
