### **3. Read the story and choose TRUE or FALSE.**

Hello! My name is Alex. I love learning about the World of Animals. Yesterday, I watched a video on the Internet about sea animals and forest animals. In the sea, the whale is very big. It is bigger than the shark. But the dolphin is quicker than the whale! In the forest, monkeys and pandas are good friends. Monkeys are better at climbing trees than pandas. I also saw a bat and a parrot. The parrot is very beautiful and it is cleaner than the bat. I think wild animals are amazing!
