

The mountain conundrum

You are lost in the mountains. You have to hike for at least **2 days** to reach safety.
Your backpack is damaged — you can only carry **5 items**. If you take more, it will break.

- choose your 5 items
- rank them from most to least important
- be ready to explain your top 3

CHOSEN ITEMS:

most useful

least useful

a map (but it's old)

a compass

a phone
(10% battery, no signal)

a flashlight (low battery)

a knife

a lighter

a thick blanket

a rope

a bag of chocolates

a water bottle (half full)
