

# EXAMEN DE LAS TABLAS DE MULTIPLICAR

NOMBRE: \_\_\_\_\_

FECHA: \_\_\_\_\_

$1 \times 4 = \square$

$4 \times 2 = \square$

$7 \times 5 = \square$

$1 \times 5 = \square$

$2 \times 6 = \square$

$5 \times 7 = \square$

$8 \times 3 = \square$

$2 \times 4 = \square$

$3 \times 8 = \square$

$6 \times 8 = \square$

$9 \times 10 = \square$

$3 \times 6 = \square$

$4 \times 6 = \square$

$7 \times 0 = \square$

$6 \times 8 = \square$

$9 \times 6 = \square$

$5 \times 8 = \square$

$8 \times 5 = \square$

$7 \times 1 = \square$

$10 \times 9 = \square$

$6 \times 4 = \square$

$9 \times 7 = \square$

$8 \times 4 = \square$

$6 \times 0 = \square$

$7 \times \square = 49$

$1 \times \square = 10$

$5 \times \square = 15$

$8 \times \square = 56$

$4 \times \square = 20$

$8 \times \square = 32$

$3 \times \square = 12$

$7 \times \square = 35$

$6 \times \square = 42$

$4 \times \square = 36$

$7 \times \square = 63$

$4 \times \square = 40$

$2 \times \square = 18$

$9 \times \square = 63$

$6 \times \square = 54$

$4 \times \square = 16$

$3 \times \square = 21$

$7 \times \square = 21$

$1 \times \square = 8$

$5 \times \square = 45$

$5 \times \square = 50$

$4 \times \square = 4$

$8 \times \square = 72$

$3 \times \square = 12$

$4 \times \square = 16$

$9 \times \square = 45$

$6 \times \square = 60$

$4 \times \square = 20$

$3 \times \square = 27$

$7 \times \square = 14$

$1 \times \square = 7$

$5 \times \square = 35$

$5 \times \square = 10$

$4 \times \square = 32$

$8 \times \square = 64$

$3 \times \square = 15$
