12. Who is (powerful) person in your company?

III. Read the text and do the following tasks. (8 points)

Rover robot landed on Mars. Nasa's latest mission has seen a robot land on Mars. Curiosity was designed by the American space agency as a rover robot and has been sent to Mars to look for signs of life. It took nine months to reach the planet, but successfully landed at 6.30 a.m., on Monday (6 August). A tweet on behalf of the robot said: "I'm safely on the surface of Mars. GALE CRATER I AM IN YOU!".

The robot will be stationed on Mars for at least the next two years, sending pictures back to Earth on a daily basis. Within minutes of landing, Curiosity had already beamed images of its wheels and views of the horizon. Scientists hope that robot will find evidence that life did once exist on the planet.

a. Decide true (T) or false (F) for each sentence.

13. The robot has been sent to Mars planet. _____
14. It travelled one year to Mars. _____
15. The robot was sent to look for different kinds of stones. _____
