1 **Use the words below to complete the sentences.**

action camera	drone	fitness tracker	smart speaker
games console	power bank	robot assistant	VR headset

1 I think that having a _____ _____ would really help older people and make them feel less lonely.

2 I wear a _____ _____ so I can see how far and how fast I run.

3 Do you think that one day a _____ will deliver your parcels?

4 I have a _____ _____ in my bag in case my phone runs out of battery.

5 Anna has invited me to play a game on her new _____ _____. I can't wait!

6 Tom wore an _____ _____ on his ski helmet. The pictures were amazing!

7 You put the _____ _____ over your eyes, like a mask.

8 Tell the _____ _____ to play some pop music!

2 **Choose the correct words to complete the text.**

My aunt is a robotics engineer and she works at the university. She and her team are making cars that can drive themselves. It's amazing! The cars use lasers to [1]**capture/immerse** images of the things around them. The lasers are [2]**connected/captured** to a computer and all the information is [3]**streamed/inspected** to a database. Once the car can [4]**identify/stream** other objects, they can use this information to [5]**capture/locate** themselves in a certain place. The same technology is used to [6]**locate/explore** remote places such as Mars, or to [7]**connect/inspect** the ocean floor for new marine life. My aunt thinks that, if we [8]**explore/immerse** ourselves in technology, it will be very beneficial!
