MY JOURNEY TO SCHOOL

MARTA

I travel to school by train. I used to catch the 8.30, which got me there just before 9 a.m. – that's when school starts. I was never late, but sometimes I had to hurry. Now I make sure I leave the house at 8 so I can get the 8.20 train. It's much more relaxing! On the train I use the time to chat with my friends on my mobile, or finish off any homework which I didn't do the night before.

GIA

I usually have to run to the bus stop to catch my bus – I should probably plan my mornings better and get up earlier! The bus is never busy, and it's nice to be on my own for a while, just to think and look out of the window. I know lots of people play games, study or read the latest news on their phones, but I just check mine quickly when I arrive at school. And I never do homework on the bus!

ROSA

I like to know what's happening around the world, so I use my mobile to do that while my mum's driving me to school in the car. I can't really do any studying, but I use the time to make a list of things to do when I'm not in school. I really hate it when there's so much traffic that we stop moving and I arrive after school starts. That makes me really angry because I get into trouble.
