

On My Own

Name _____

Which equation is represented by the base-ten blocks?
Choose the correct answer.

A. $221 + 113 = 334$

B. $224 - 113 = 111$

C. $224 + 113 = 337$

D. $221 - 113 = 108$

A. $338 - 202 = 136$

B. $335 - 222 = 113$

C. $338 - 222 = 116$

D. $328 - 202 = 126$

What is the difference? Use base-ten shorthand to show your work.

3. $279 - 157 = \underline{\quad}$

4. $386 - 105 = \underline{\quad}$

Represent the problem using base-ten shorthand.

- Mateo has 725 football cards. He gives away 205 cards. How many football cards does Mateo still have?
- Molly scores 365 points. She loses 124 points. How many points does Molly have left?

7. **Error Analysis** Hank writes $416 - 105 = 301$. How do you respond to him?

8. **Extend Your Thinking** How can you use base-ten blocks to solve $256 - 134$?

Reflect

How can base-ten blocks help you subtract 3-digit numbers?
