GRAVITY

Gravity is an invisible that pulls everything toward the ground/Earth

SCIENCE

Without GRAVITY

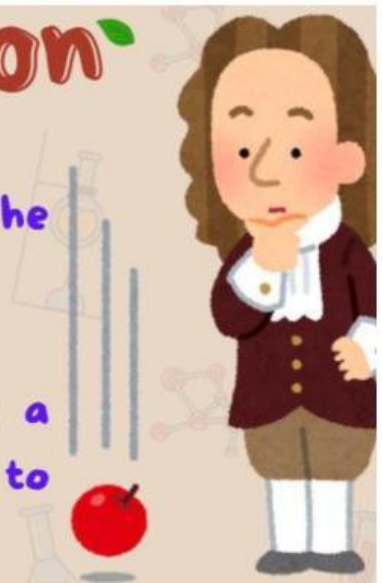

Everything would fly off

Isaac Newton

He was a

He discovered gravity when he saw an apple fall from a tree.

He explained that gravity is a force that pulls things down to the

Do heavier objects fall faster?

All objects fall because of gravity, and they fall almost at the same

So why do some things fall slower?

Because of air

Air pushes

Conclusion:

**Objects don't fall faster
because they are heavier, but
because of how air**
