- D. You can use your smartphone during the test if needed.

**Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 31 to 36.**

Space exploration has fascinated humanity for decades. Since the first Moon landing in 1969, technology has advanced rapidly, allowing us to send robots to Mars, study distant planets, and learn more about our solar system. These missions not only satisfy human curiosity but also lead to scientific and technological **breakthroughs**, benefiting many industries on Earth.

However, space exploration comes with significant challenges. The cost of launching **missions** is extremely high, and some argue that the money could be better spent addressing urgent problems on Earth, such as poverty, healthcare, and climate change. In addition, space missions are risky due to factors like extreme temperatures, cosmic radiation, and the potential for equipment failure.

Despite these concerns, many countries and private companies continue to invest in space exploration. The potential benefits are enormous, from scientific discoveries to possibly finding planets that could one day support human life. While the future of space exploration is promising, the risks and costs involved must always be carefully weighed.

31. What is the main idea of the passage?

- A. Space exploration is too expensive for governments to afford.
- B. Space exploration leads to technological advancements and discovery.
- C. Private companies should not invest in space missions.
- D. Space exploration is not as valuable as solving Earth's issues.

32. The word "**breakthroughs**" in paragraph 1 is CLOSEST in meaning to \_\_\_\_\_.

- A. failures
- B. discoveries
- C. challenges
- D. mistakes

33. The word "**missions**" in paragraph 2 refers to \_\_\_\_\_.

- A. government projects
- B. modern companies
- C. large budgets
- D. space program

**34.** Which of the following is a challenge mentioned about space exploration?

- A. It is low-risk and unimportant.
- B. There are political challenges.
- C. The costs are high, and the risks are significant.
- D. The risks are too low to worry about.

**35.** Which of the following is TRUE about space exploration?

- A. Only the government funds space exploration.
- B. Space research has no impact on daily life.
- C. Both governments and private companies are investing in space.
- D. Space missions are only conducted for tourism.

**36.** Why do some people believe that space exploration should be reduced?

- A. It is too costly and risky.
- B. They think it does not benefit people on Earth.
- C. It is a way to escape Earth's problems.
- D. It is more important than solving world hunger.

**Four phrases/ sentences have been removed from the text below. For each question, mark the letter A, B, C, or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 37 to 40.**

#### RENEWABLE ENERGY TODAY

Renewable energy is becoming more important around the world. **(37)** \_\_\_\_\_. In the past, people mostly used coal and oil for power. However, these sources of energy are limited, and they cause pollution. Today, more countries are turning to renewable energy sources, like solar and wind power. These sources are clean and won't run out anytime soon.

**(38)** \_\_\_\_\_, many cities are investing in solar panels and wind turbines. These technologies help produce electricity in a way that doesn't harm the environment. People are also learning how to save energy by using energy-efficient appliances and light bulbs.

While renewable energy is still more expensive to produce, **(39)** \_\_\_\_\_. People believe that the cost will decrease over time as technology improves. This will make it easier for more people to use renewable energy.

**(40)** \_\_\_\_\_, the future of energy looks cleaner and greener thanks to renewable sources.

- A. Countries are moving away from fossil fuels
- B. For example
- C. it is expected to become cheaper
- D. With continued investment

**37.** \_\_\_\_\_      **38.** \_\_\_\_\_      **39.** \_\_\_\_\_      **40.** \_\_\_\_\_
