Little Women

1 Today, I'm going to tell you about a brilliant film I've just seen: *Little Women*. It's a 2019 film directed by Greta Gerwig.

2 The drama is based on a well-loved book by Louisa May Alcott and it tells the story of four sisters who are growing up in America. Life isn't easy for them, but they always help each other and never give up. It's a very inspiring story.

3 The actors all perform **brilliantly**. Saoirse Ronan is **particularly** good. Also, I **really** liked the costumes. I usually choose films with a lot of special effects. *Little Women* doesn't have any, but it's still **extremely** good.

4 I **absolutely** love the book, but the film is also very **well** done. I **highly** recommend it to anyone who likes drama, romance and an amazing story. It's one of the best films of the year.
