

Listen and fill in the blanks

Rock groups use an electric bass. It looks like an **electric guitar**, but with only **four strings**. Lenny wants to play an instrument too. He thought about playing the guitar. He could play that with his parents, but not in the **school orchestra**. Then he thought about playing the fiddle. The fiddle is the same instrument as the violin. It is called the fiddle when you use it to play **folk music**. This way, Lenny could play fiddle with his parents. Then, using the very same instrument, he could play **violin** at school!
