Read the following passage and mark the letter A, B, C or D to indicate the correct answer to the questions 26-30.

Scientists believe that the smart home may be the home of the future. These homes may be of different shapes and sizes. They may also float on the water.

LIVEWORKSHEETS

Scientists have designed the eco houseboat - a kind of house floating on the sea. But the houseboat is **stable** and doesn't rock heavily when there are big waves. It makes use of waves and solar energy to move it around and provide power. It also has solar panels on the top of the house to generate electricity. And it can recycle all kinds of household waste.

A robot controls everything in the house and does the housework. In the kitchen, smart refrigerators and dishwashers can automatically work by themselves. A smart oven can cook your favourite dishes. All these things and other advances will make our life much better.

26. The eco houseboat will be _____.

A. in the air
B. on the sea
C. in the desert
D. on the ground

27. The word "stable" in the second paragraph is closest in meaning to _____.

A. comfortable
B. not moving
C. not sinking
D. peaceful

28. What is special about the kitchen in the houseboat?

A. a robot
B. special dishes
C. smart equipment
D. solar panels

29. Which of the following is NOT true?

A. Scientists have built the eco houseboat.
B. The eco houseboat has solar panels on the top.
C. The houseboat can recycle waste.
D. Our life will be better.

30. What is the main idea of the passage?

A. Life in the future
B. Generating electricity in the future
C. Shapes and sizes of houses
D. A special kind of house in the future

Four sentences have been removed from the text below. For each question, mark the letter A, B, C or D to indicate the correct option that fits each of the numbered blanks from 31 to 34 the most.

The Environment Needs Our Help

Today, the environment is facing many problems because of human activities. People cut down forests, throw trash into the oceans, and pollute the air with smoke from factories and cars. (31) _____. This pollution causes many serious issues such as climate change, dirty water, and unhealthy air. Governments and scientists around the world are working hard to protect the planet. (32) _____. For example, some countries are using more solar and wind energy instead of coal or oil. Ordinary people can also make a big difference because (33) _____. Walking or riding a bike instead of driving a car also helps reduce air pollution. (34) _____.Together, we can help save our planet for future generations.

A. everyone can help by using less plastic and recycling more.

B. As a result, nature and animals are in danger.

C. They create laws to reduce pollution and support clean energy.

D. Even small actions, like turning off lights when not needed, can make a big impact.

Mark the letter A, B, C or D to indicate the sentence that is closest in meaning to the original sentence.

35. Fish die when water in lakes, rivers, and oceans is dirty.

A. When water in lakes, rivers, and oceans is dirty, fish live.
B. If water in lakes, rivers, and oceans is dirty, fish will die.
