

PHẦN 1: FILL IN THE BLANK (ĐIỀN VÀO CHỖ TRỐNG)

1. Global warming (cause) _____ polar ice to melt rapidly.
2. Deforestation (destroy) _____ the natural habitats of many wild animals.
3. Trees (absorb) _____ carbon dioxide and release oxygen into the atmosphere.
4. Air pollution (lead) _____ to many respiratory diseases in big cities.
5. Greenhouse gases (trap) _____ heat in the Earth's atmosphere.
6. The Earth (become) _____ warmer every year due to human activities.
7. Many species (lose) _____ their homes when people cut down forests.
8. Climate change (affect) _____ weather patterns all over the world.
9. Intense heat (result) _____ in more extreme weather events like droughts.
10. Plastic waste (pollute) _____ our oceans and harms marine life.

PHẦN 2: MULTIPLE CHOICE (CHỌN ĐÁP ÁN ĐÚNG)

11. Rising sea levels _____ coastal cities around the world.

- A. threatens B. threaten C. is threatening D. threatened

12. Heavy smoke from factories _____ air pollution.

- A. creates B. create C. creating D. creates not

13. Does deforestation _____ to habitat loss?

- A. leads B. leading C. lead D. led

14. Polar bears _____ their hunting grounds because the ice melts too fast.

- A. loses B. losing C. lose D. is lose

15. Carbon dioxide _____ a major greenhouse gas.

- A. are B. is C. be D. am

16. People _____ enough to protect the environment in some areas.

- A. not do B. doesn't do C. don't do D. doing not

17. Extreme weather events _____ more frequently nowadays.

- A. happens B. happen C. is happening D. happening

18. Solar energy _____ help reduce the amount of greenhouse gases.

A. do B. does C. is D. are

19. Respiratory diseases _____ among children living in polluted areas.

A. increase B. increases C. increasing D. is increase

20. Protecting the environment _____ a very important task for everyone.

A. be B. are C. is D. am
