

## READING

1 Look at images a–c. Discuss what you can see with a partner.

2 Look at the images again and match them with places 1–3.

- 1 The Nile River .....
- 2 Mount Everest .....
- 3 Angel Falls .....

## EARTH HAS IT ALL

Are you planning to visit the longest river, the highest waterfall or the tallest mountain in the world? Check out this information about three amazing places!

The longest river on the planet is the Nile River. It goes through 11 countries in Africa. That's right ... 11! You can travel along the Nile: start by kayaking in Uganda and finish in busy Cairo with a visit to the famous pyramids.

You can't miss Angel Falls in Venezuela. It's the world's highest waterfall in Canaima National Park, a UNESCO World Heritage site. Fly over the jungle, see a lot of different animals, and go for a swim in the beautiful, clean water. Imagine all the stories you can tell about your trip to Venezuela.

What about climbing? Reaching the top of the tallest mountain in the world is an amazing but also terrifying experience. Mount Everest is located between Nepal and Tibet. Climbers can often experience everything, from the best sunny day to the worst rainy afternoon when climbing. But as the saying goes, no pain, no gain!

3  2.03 Read and listen to the article. Then answer the questions. Write *N* (River Nile), *E* (Mount Everest), or *A* (Angel Falls).

- 1 Which place is a UNESCO World Heritage site? ... A ...
