

Title: "How Learning English Has Changed My Life"

Over the past few years, I have made many decisions that have helped me grow, but learning English is one of the most important. I have practiced every week, and I have used different digital tools to improve my skills. These tools have allowed me to listen to real conversations, read authentic texts, and watch videos from around the world.

Technology has also helped me connect with people. I have joined online study groups, and I have met students from different countries. Through these conversations, I have learned about new cultures and new ways of thinking.

Most importantly, learning English has opened new opportunities. I have applied for international programs, and I have received invitations to participate in workshops. Because of these experiences, I have become more confident and motivated to continue learning.

Choose the correct answer.

1. What has helped the speaker improve their English skills?
 - A. Traveling every month
 - B. Using digital tools
 - C. Reading only textbooks
 - D. Avoiding online content
2. What has allowed the speaker to meet people from other countries?
