

Leo's Favorite Hobby

"Meet Leo. He is 16 years old and he loves video games. He plays games on his computer and on his mobile phone. His favorite game is a football game because he really likes sports. He usually plays on weekends with his friends online. They talk on their headphones and laugh a lot. Leo does not play video games on Mondays or Tuesdays because he has a lot of homework for school. Playing games is very fun, but Leo knows that doing his school work is the most important thing.
