LIVEWORKSHEETS

EX6: We know that we will pollute the environment if we do not use materials **wisely**. People have founded many programmes to save materials and protect the environment. 3Rs is one of them. 3Rs stands for Reduce, Reuse and Recycle.

Reducing means we reduce the amount of waste we produce. This is the best way to help the environment. If we do not reduce the waste, we will pollute our environment more **seriously**.

Reusing is using the items again. For example, plastic bags can be reused if it is still new. We should not throw away reusable things but store and use them for other purposes.

Recycling is changing waste materials into new products. For example, we recycle waste paper to make carton boxes. We should recycle as many things as possible.

If we reduce, reuse and recycle our resources, we will save energy and money. Moreover, we will help to prevent pollution and global climate change.
