TAK12.com

LIVEWORKSHEETS

Read the following passage and choose the correct answer.

Waste is categorized based on its materials or its source. For example, plastic and rubber are non-biodegradable. This means they take a very long time to break down. Fabric waste comes from old clothes and other textile items. Metal waste includes materials like aluminium and copper. These are often found in cans, wires, and pipes.

People create a **huge** amount of waste every year - more than 2 billion tons. This waste not only harms the environment but also creates serious risks for wildlife and their homes. About 33% of this waste is not properly managed. It pollutes landfills, oceans, and other natural areas. Animal waste, like droppings, can also spread diseases and damage ecosystems. Additionally, we bury over 800,000 cubic meters of waste annually, which can harm both the soil and water.

To protect our planet, we must produce less waste. Simple actions, such as recycling, reusing items, and buying only what we need, can make a big difference. It is also **vital** for the government to educate people about the importance of protecting the environment through leaflets and campaigns. If we don't take action now, future generations will face serious problems like more pollution, fewer types of plants and animals, and damage to the environment. Every small change we make today can help make the world a better place tomorrow.

Question 23 (Question ID: 9-920324)

What is the main idea of the passage?

A. Different sorts of waste and their impact on the environment

B. How waste is managed and recycled globally

C. The role of governments in educating people about waste disposal

D. How waste can be reduced through recycling

Pickleball: The Fast-Growing Sport in 2024

Pickleball has become one of the fastest-growing sports in the world, especially in the United States. As of 2024, more than 36 million people play pickleball regularly, **Q29.1**..... The sport blends elements of tennis, badminton, and ping pong, and it offers a fun and engaging experience for both beginners and experienced players.

One reason for pickleball's rapid growth is its accessibility. **Q29.2**..... Pickleball can be played on small courts, and this makes it perfect for both indoor and outdoor spaces. Its simple equipment and easy-to-learn rules attract people of all skill levels, from children to seniors.

Professional pickleball tournaments have become more common in recent years. These events offer large prize money, such as the 2024 Pickleball Slam, **Q29.3**..... Many famous athletes from other sports, including tennis and basketball, have joined the sport, which has brought more attention to it.

By 2024, many countries have set up pickleball federations and started organizing international tournaments. This has helped pickleball grow as a professional sport, and it has attracted sponsorships and significant investments. **Q29.4**.....
