Make Sure Your Car Is Safe

Questions:

1. Why are newer cars safer than older cars?
2. What is the most important feature for staying safe when driving or riding in a car?
3. Which technology can help reduce the risk of forgetting my baby in my car?
4. Which are safer – small cars or big cars?
5. How can I reduce the danger of crashing into a car I cannot see when I change lanes?
6. Is it enough to have front airbags in my car?
7. Sometimes I start to fall asleep while driving. What can help me with this problem?
8. Which car color should I choose for maximum safety?

Answers:

- a. Install a system that uses sensors to detect cars in blind spots and warns the driver about them.
- b. In general, a large car gives better protection against injuries in the case of an accident.
- c. White cars have the lowest chance of being involved in an accident, so they are the best choice.
- d. Seat belts are the most effective way to prevent or minimize injuries in the case of a car accident.
- e. It's important to have side airbags, too, since they can prevent up to 52% of injuries.
- f. A system that sounds an alarm if it detects motion in the back seat after the engine is turned off.
- g. Buy a car with a camera that monitors your eyes and sounds an alarm if your eyes start to close.
- h. Cars that were manufactured recently include many safety technologies.
