Earth Day

READING COMPREHENSION ACTIVITY

Earth Day is on April 22 every year. People around the world celebrate this day to help the planet. Many people plant trees, clean parks, and pick up trash. Schools teach students about nature and recycling. Some families ride bikes or walk instead of using cars. Others save water and turn off lights at home. Earth Day shows that small actions make a big difference. It also reminds people to protect animals, forests, and oceans. Everyone can help the Earth every day, not only on Earth Day.

A. Read the text and decide whether the sentences are true or false.

1.	Earth Day is on April 12.	True	False
