- B. Only residents and guests are allowed to use this road.
- C. Guest's cars are not allowed on this road.
- D. Driving fast is allowed on this road when there is no traffic.

Read the passage and choose the best answer for each question.

Every year, the average temperature of the Earth's surface gets a little bit warmer. This gradual trend is called global warming. Warmer weather may sound nice, but global warming is something to be very concerned about.

Scientists are worried that continued warmer temperatures could damage the environment in many **devastating** ways. Rising temperatures might cause plants and animals to become extinct. They could melt enough polar ice to cause the levels of the sea to rise. Weather patterns could also change. There might be more droughts or serious storms with flooding. In some areas, human diseases could spread.

What is causing global warming? Humans are mostly to **blame**. Pollution from factories and cars adds toxic gases to the air. These gases rise to the Earth's atmosphere. As the sun's rays warm the Earth, the gases work much like the glass in a greenhouse. They help trap the heat in the atmosphere and make the Earth grow warmer. That is why they are nicknamed "greenhouse gases."

It is our responsibility to take care of our planet. Global warming is a serious problem with serious consequences. If we want future generations to enjoy their time on Earth, we must act now!

Question 23 (Question ID: 9-946006)

This passage is mostly about _____.

- A. the most effective solutions to global warming
- B. the different types of global warming
- C. the reasons why global warming is a serious problem

Question 29 (Question ID: 9-852821)

Four phrases/sentences have been removed from the text below. Choose the correct answer to complete the text. Write only the letter A-D in each blank.

- A. Many end up being buried or burned, which wastes valuable oil resources.
- B. from the Arctic to Antarctica
- C. eventually become free of plastic bags
- D. In the past, reusable bags were common, but today, people rely heavily on plastic for convenience.

The Global Impact of Plastic Bags and the Need for Change

Plastic bags have become a significant global problem. In the late eighties and early nineties, they were rarely seen in the sea, but now they are found almost everywhere, **Q29.1**..... These bags are among the most common items found during coastal clean-ups. In Africa, windblown plastic bags are so prevalent that people collect and repurpose them, even creating small recycling factories around them.

The environmental impact of plastic bags is alarming. **Q29.2**..... Wildlife also suffers: turtles, birds, and dolphins often mistake plastic bags for food, leading to choking and death. Some filmmakers, like Rebecca Hosking, have been so moved by the harm done to animals, such as albatross chicks, that they have started local movements to eliminate plastic bags. These efforts have spread to other communities, and this has raised hopes that entire countries could **Q29.3**.....

A shift in consumer habits is essential. **Q29.4**..... However, recent efforts by supermarkets to reduce plastic bag usage and promote alternatives are slowly changing attitudes. The example of Ireland, which introduced a tax on plastic bags, serves as a model for other countries considering similar measures.
