

Sustainable Development Goals (SDG): Multiple Choice

Instructions: Listen to the conversation. Choose the correct option based on the information.

1. What was the state of the coral reefs before the conservation project began?
 - A) They were thriving due to the local climate.
 - B) They were dying because of human activities.
 - C) They were growing at a very rapid rate.
 - D) They were studied by many foreign experts.

2. In Lisa's story, why did the women have to walk five kilometers every day?
 - A) To find a reliable source of clean water.
 - B) To transport the local goods to the city.
 - C) To attend a class at the regional school.
 - D) To visit the doctor at the medical center.

3. What specific impact did the new water infrastructure have on the children?
 - A) It allowed them to play more sports outside.
 - B) It helped them learn how to build the wells.
 - C) It increased their school attendance rates.
 - D) It gave them more time to help their parents.

4. What challenge did the young women in the cooperative face in the past?
 - A) A lack of materials for their new products.
 - B) A high level of gender-based discrimination.
 - C) A difficult commute to the coastal villages.
 - D) A shortage of energy for their production.

5. What event inspired the architect to focus on environmental responsibility?

- A) A large earthquake that destroyed the city.
- B) A successful meeting with the local mayor.
- C) A massive flood that hit her own hometown.
- D) A scholarship to study in a foreign country.

6. How did Caleb's perspective change by the end of his coastal trip?

- A) He decided to become a professional fisher.
- B) He became much more conscious of ecology.
- C) He moved to the coastal town permanently.
- D) He started a new business in the industry.

7. According to Lisa, what contributes to the larger global progress?

- A) Finding new ways to travel more frequently.
- B) Creating many separate and private goals.
- C) Signing a contract with the local village.
- D) Small stories within the goal partnerships.

8. What does Caleb mean when he says he "reminisced" about his past habits?

- A) He forgot all about his previous lifestyle.
- B) He thought back to how he used resources.
- C) He planned a new trip for the next month.
- D) He told a secret to his friends at dinner.

9. What kind of cooperative were the young women starting during the trip?

- A) A focused Responsible Production group.
- B) A large and expensive luxury hotel chain.
- C) A community focused on modern technology.
- D) A primary school for the local children.

10. What was the general tone of the conversation among the three friends?

- A) Worried and anxious about the future days.
- B) Reflective and inspired by global efforts.
- C) Angry and upset about the coastal damage.
- D) Bored and disinterested in the SDG themes.
