**How technology makes our lives easier**

Last weekend I was supposed to write an essay entitled 'How technology makes our lives easier'. I sat down in front of the <sup>1</sup> \_\_\_\_\_ and started thinking. Then I got a <sup>2</sup> \_\_\_\_\_ from a friend inviting me to go out. So I did. The next morning I wanted to get some <sup>3</sup> \_\_\_\_\_ for my essay from the web, but the internet <sup>4</sup> \_\_\_\_\_ wasn't working. I went to the local library, which has free Wi-Fi, with my <sup>5</sup> \_\_\_\_\_. I didn't plug it in, because there are only four <sup>6</sup> \_\_\_\_\_ and other people were using them. I looked up the information I needed and then decided to have a quick look at the photos from a class party on one or two social networking <sup>7</sup> \_\_\_\_\_. Suddenly the laptop shut

down. And the manual says it has a battery <sup>8</sup> \_\_\_\_\_ of seven hours! I finished the essay at home and wanted to print it out, but the <sup>9</sup> \_\_\_\_\_ was broken. I copied the work onto a <sup>10</sup> \_\_\_\_\_ stick to print it out at school, but I forgot to take it with me. That's how technology made my life easier... I should have written the essay by hand.
