IV. Đọc và trả lời câu hỏi

I live in a place where the weather changes throughout the year. We have four seasons: spring, summer, fall, and winter.

In spring, the weather gets warmer, and the snow melts. Flowers begin to grow, and the days become longer. I like to wear a light jacket and go outside with my dog.

In summer, it gets hot. The days are long, and the nights are short. Many plants grow bigger, and people often wear shorts and play outside.

In fall, the weather gets cooler. Leaves fall from the trees, and the days become shorter. I usually wear a sweater.

In winter, it is very cold. Snow begins to fall, and many plants die. The nights are long, and I wear a warm coat. Then the cycle starts again.
