Exercise 8. Read and write True (T) or False (F).

These are 7 simple habits to implement in your everyday life which will make a difference. There is nothing new here but if you follow at least some of these tips, you can be proud of yourself participating in the protection of the environment.

1. *Use compact fluorescent light bulbs:*

It is true that these bulbs are more expensive, but they last much longer and they can save energy and in the long run your electricity bill would be reduced.

2. *Donate:*

You have tons of clothes or things you want to get rid of. If they are still usable, give them to someone who needs them. You may also choose to give them to associations. These associations may sell them and collect a little money. Not only will you protect the environment, but you will also contribute to a good cause.

3. *Turn off your devices:*

When you do not use a house device, turn it off. For example, if you don't watch TV, turn it off. Turn off the light when you leave a room (even if you intend to return.) It's an easy habit to take up which will help you save a lot of money.

4. *Walk or cycle:*

Driving is one of the biggest causes of pollution. If you want to use your car, ask yourself the following question: do I really need my car? Walk or use your bike if the journey is a short one.

5. *Detergent:*

Follow the recommended dose of detergent to wash your clothes or dishes.

6. *Leaky faucets:*

Watch leaky faucets, which can cause a significant increase in the the water bill. An average of 120 liters of water can be wasted due to a dripping faucet.

7. *Rainwater:*

Think of recovering rainwater. This water can be used for different purposes.

34. Your electricity bill can be reduced if you use the bulbs. _____
35. You should donate old clothes to people who are in need. _____
36. You don't need to turn off the light when you leave a room. _____
37. Driving is not one of the biggest causes of pollution. _____
