

1. Read the text and answer the following questions:

## Technology Makes Life Easier

Technology is an important part of our daily life. People use smartphones, laptops, and smartwatches every day. We use headphones to listen to music and keyboards to type messages and complete our work. Many people visit websites to get information, watch videos, and communicate with others around the world.

In schools, students use whiteboards and touchscreens to learn and understand lessons more easily. Teachers also use technology to explain ideas in simple way.

At home, people use their devices to relax, study, and connect with family and friends

Technology makes life easier, faster, and more comfortable. It helps us save time, learn new things, and stay connected in today's modern world.
