

My first trip to India

I always look forward to the school holidays to de-stress and unwind. My parents would usually (0) planned a family trip. It is always so much fun to go on a family trip during these holidays. We go on (1) this trips almost always as a family of five, which consists of my father, mother, my twin siblings and I, (2) for my cousins also travel with us on occasion. I always have a fantastic time (3) with these trips. This year, (4) their parents decided to go to Ooty and Mysore in India. It was my first time there and it was a pleasure to (5) visits both the locations. However, I enjoyed Ooty a little bit more. It is home to beautiful gardens and marvellous structures. While there, we enjoyed the local food, went sightseeing and spent (6) few quality time with each other. It was (7) a amazing experience, and possibly the best family trip I ever had. I also think it was the (8) long one. This holiday was for a week, which made it more enjoyable.
