

When I was, I thought the world of you

You were all that I then

It faded and I never you again

But I won't forget the l..... we had

Come to me now

Don't me go

Stay by my side

Stay with me still

I've you so

When I was, I thought the world of you

I was dumb toyou drift away

And though I guess it had to to an end

No one else couldthe love we shared

And my heart goes

Out to

Wherever you are
