Population problems are different in different parts of the world. For example, in many European countries, the population is getting older. The birth rate is low because many young people have only one child or none at all. After retirement, they feel lonely and often very poor because they don't save enough money. In Africa, the population problems are very different. The population has grown rapidly over the last 40 years and it has a relatively young population. Many families continue to have large numbers of children to look after older people and to help on the land. Asia is the largest and most populous of earth's continents. It also has the highest population growth rate today, and its population almost quadrupled during the 20th century. Asian population will continue to grow, increasing pressure on the region's natural resources.

_____ **26.** In Europe, young couples usually have more than two children.

_____ **27.** Old people in many European countries don't save enough money for their retirement.

_____ **28.** The population of Africa has increased rapidly.

ALASKA

Alaska is perhaps the most amazing state in the USA. It has coastlines facing both the Arctic Ocean and the Pacific Ocean. This state has three million lakes. That's four lakes per person living there.

We cannot reach many cities in Alaska by road, sea, or river. The only way to get there is by air, foot, or dogsled. That's why Alaska has the busiest sea airport in the world, the Lake Hood Seaplane Base. Nearly two hundred float planes take off and land on the water of this airport every day. It's really a fun scene to watch.

In summer, the sun does not set for nearly three months in Alaska. But in winter we rarely see the sun. It is dark All Alaskans take special pride in their beautiful and unique state.
