**Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct word that best completes each blank.**

These days, many people know that cars can (20) \_\_\_\_\_ serious harm to the environment, and they see that cars cause many problems in their cities. However, (21) \_\_\_\_\_ individuals pause to consider the amount of money they could save by switching from driving to cycling.

Cars are expensive to purchase, and unlike other (22) \_\_\_\_\_ investments like houses, their value decreases rapidly. On top of that, there are running costs such as repair bills, tax, and insurance, all of (23) \_\_\_\_\_ seem to go up every year.

Bicycles, in contrast, are far less expensive to purchase and maintain. They do not require petrol and are easy to park. (24) \_\_\_\_\_, if more people opted for cycling, the government could allocate fewer national resources to roads, which are currently funded by taxes whether they drive on them or not.

**Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the questions.**

Protecting the environment is very important for our planet. We need to take care of nature to keep the Earth clean and healthy. There are many simple things we can do to help the environment. For example, we can recycle paper, plastic, and glass. Recycling contributes to **minimizing** waste and conserving natural resources. Another way to protect the environment is to save water. We should turn off the tap when brushing our teeth and take shorter showers. Also, using less electricity can help. Turning off lights when we do not need them and using energy-efficient bulbs can make a big difference.

In addition, planting trees is also very good for the environment. Trees clean the air and provide homes for animals. **They** also help to keep the climate **stable**. We can all plant a tree in our garden or join a community tree-planting event. Using public transport, walking, or riding a bike instead of driving a car helps reduce pollution. Cars produce a lot of harmful gases that pollute the air. By choosing other ways to travel, we can keep the air clean and reduce our carbon footprint. Everyone can help protect the environment. By making small

changes in our daily lives, we can make a big difference for our planet.
