IV

Read the following passage. Decide whether the statements from 23 to 26 are True or False, and choose the correct answers (A, B, C or D) for questions 27 and 28. (1.5 pts)

FOMO, or 'Fear of Missing Out,' is something many people, especially young people, might often experience. It means you worry that you are not part of something fun or important. For example, you might see photos on social media of your friends at a party. If you were not there, you might feel sad or think you are missing something special. FOMO can happen in many situations. Maybe your classmates are talking about a new movie, and you have not seen it, or your friends go on a trip, but you cannot go

with them. When this happens, you may feel left out or nervous because you want to be included. FOMO can push people to do things they do not really want to do, just because they are afraid of missing out. For example, you might say “yes” to going out when you are tired, or you might check your phone often to see what others are doing. That’s why if you feel this way, try to focus on your own happiness. Do not compare yourself too much to others since everyone has a different life, opportunities and challenges. In addition, taking a break from social media can help you relax and focus on real life. Also, talking to your friends or family about your feelings can give you comfort and support. Last but not least, remember you cannot be everywhere at once, and that is okay. Enjoy the things you do, and do not worry too much about missing out.

23. FOMO stands for “Fear of Missing Out”, and it often affects young people.
24. Seeing party photos on social media always makes people feel happy.
25. People with FOMO usually prefer to stay offline and ignore what others are doing.
26. You cannot join every event or activity, and that is perfectly fine.
27. What is the main idea of the passage?
- A. A feeling of not being included in exciting things among young people
 - B. A feeling of not being given opportunities to go everywhere in the world
 - C. A feeling of not being able to contact others on their phones everywhere
 - D. A feeling of not being the centre of a crowd in any important event
28. Which of the following is NOT mentioned in the text?
- A. FOMO may occur when classmates discuss a movie you haven’t seen.
 - B. Sometimes FOMO pushes people to say yes to activities even when they are tired.
 - C. Many people tend to check their phones before bed because of FOMO.
 - D. One way to handle FOMO is by focusing on your own happiness.
