

# Lesson 9-4

## Graphing Sine and Cosine Functions

### Trigonometric Functions

1. Select the graph of  $y = -2 \sin 3x$

# Lesson 9-4

## Graphing Sine and Cosine Functions

2.

Graph of

$$y = \frac{3}{4} \cos \theta$$

is

3.

Graph of

$$y = 5 \sin \frac{2}{3} \theta$$

is

4.

Graph of

$$y = -3 \sin x$$

is
