He was walking through the city park while listening to music on his phone. Many people were enjoying the day too. Some children were playing soccer, and a group of friends was having a picnic near the lake.

While Carlos was walking, he noticed a woman who was looking worried. She was searching for something in her bag and looking around nervously. Carlos stopped and asked if she needed help. The woman explained that she had lost her keys while she was jogging in the park.

Carlos offered to help her. They were walking together and looking at the ground carefully. After a few minutes, Carlos saw something shiny near a bench. It was a small set of keys. The woman was very happy and thanked Carlos for his help.
