V. Read the text and decide if the statements are TRUE or FALSE.

Films are one of the most popular forms of entertainment today. The actors use facial expressions to show emotions clearly, helping the audience understand the story without needing many words. Behind the scenes, a large team works hard to make everything look and sound real.

Modern films often use animation and computer graphics to create imaginary worlds and characters. Directors also add sound effects and a powerful soundtrack to make scenes more exciting. For example, during a battle scene, loud sound effects can make the audience feel as if they are right there in the action.

Not everyone finds it easy to sit quietly in a cinema. Some people snigger during serious scenes, which can disturb others. Cinemas sometimes insist on rules such as keeping phones silent and whispering only when necessary. In some modern cinemas, there is even a no-tech zone where phones and tablets are completely banned.

Statements:

1. Only the actors work to make a film look and sound real. _____

2. Animation and graphics are used to create imaginary worlds in films. _____
3. The text says sound effects are used to make scenes less realistic. _____
4. According to the text, some people laugh quietly during serious scenes in the cinema. _____
5. Cinemas never have any rules about technology use. _____
