Read the text about my favorite place and find the information to answer the questions.

Hello friends,

I am going to share with you my exciting experience of my visit to the farm. Recently, my sister and I and our family friends, went to an organic farm. This place is called "Urban gardening". It is in Vengal, which is about 100 km from Chennai. Last vacation, we went in a bus. It took a long time to reach there. I am always excited to see the farm and the different kind of plants. This organic farm is divided into sections. He told us that each plant has to be planted in sections. The owner told us that each plant has to be planted in a section. He taught us how to pluck ladies fingers. We also got to taste the lady finger raw. And then, we went to the corn field. My friend, my sister and I ran around and played together in the corn field. Finally, went to the watermelon patch and pulled out huge watermelon. We also ate the watermelon. After seeing all these plants, we got into the bus and came back home. I enjoyed my trip to the farm and if I get a chance to visit the farm again, I wouldn't miss it for the world.
