Last Saturday, Emma and her family went to the beach near their city. The weather was sunny and warm, so everyone was very happy. Emma wore her favourite pink hat and took her beach toys with her.

First, she played volleyball with her brother and then they built a very big sandcastle near the water.

After that, the family went swimming in the sea. Emma liked the water because it was clean and warm. Suddenly, she saw a jellyfish not far from her. Emma was scared and called her dad. Her dad helped her and told her to stay calm and careful.

Later, the family sat under an umbrella and had lunch together. They ate sandwiches, fruit and drank orange juice.

In the evening, they watched the sunset and went home tired but happy. Emma said it was one of the best summer days ever.
