Read the passage:

It's a lovely village in Kon Tum Province. My family and I visited this village for our summer vacation.

There aren't any large hotels in this village, so we stayed at a nice homestay with a local Bahnar family. They were very friendly. We joined lots of fun activities. We went hiking in the national park. I think the nature in the park is really amazing. We also went on a boat trip on Đắk Bla River. It's really fun to ride along the river and see the local people. We ate many kinds of traditional food like grilled chicken, cơm lam, and gỏi lá. They were really delicious! We learned how Bahnar people make their traditional baskets, too.

Our trip was great! I think you should visit this village, too.
