

Comparing Countries

Which Country Should I Visit?

Hi! My name is Laura, and I want to choose a country for my next vacation. I am comparing Argentina, Brazil, and Mexico because they are all beautiful and interesting countries.

Brazil is **hotter than** Argentina in the winter, and its beaches are some of **the most beautiful** in South America. In the summer, temperatures can **get up to 35°C** in some cities. Rio de Janeiro is one of **the most exciting** cities in the world.

Brazil is also **bigger than** Mexico because it has an area of about 8.5 million **square kilometers**. The Amazon Rainforest is **the largest** rainforest on Earth.

Argentina is **colder than** Brazil, especially in the south. In winter, some places can **get below 0°C**. However, Argentina has amazing mountains and nature. Mount Aconcagua is 6,961 **meters high**, so it is **the highest** mountain in the Americas. Buenos Aires is **quieter than** Rio de Janeiro, but many people say it is **the most** elegant city in South America.

Mexico is **closer** to Colombia than Argentina, so the flight is **shorter** and **cheaper**. It is about **3,000 kilometers away**. Mexico is **warmer than** Argentina, but usually not as hot as Brazil. It has some of **the most delicious** food and **friendliest** people in the world. Copper Canyon is about **1,800 meters deep** and is one of **the most beautiful** natural places in the country.

I still can't decide! Brazil has **the hottest weather**, Argentina has **the highest** mountains, and Mexico has **the shortest** distance from my country. Maybe Mexico is **the best** option for me because
