Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 31 to 36.

The effects of pollution on the environment are alarming. Air pollution, caused by emissions from vehicles and industrial activities, has led to poor air quality and health problems for many people. Water pollution, resulting from the discharge of harmful chemicals and waste into rivers and oceans, affects marine life and the ecosystems that depend on them. Soil pollution, caused by the contamination of soil with harmful substances, can lead to reduced crop yields, contaminated groundwater, and health risks for communities.

To **combat** these issues, various organisations and governments are implementing stricter regulations on waste disposal and emissions. Many cities are investing in public transportation systems to reduce the number of vehicles on the road, which can significantly decrease air pollution. Additionally, there is a growing trend towards using biodegradable materials to minimise waste and protect wildlife.

Individuals also play a vital role in environmental protection. Simple actions, such as using reusable bags, conserving water, and reducing energy usage at home, can make a **notable** difference. By working together, we can create a cleaner and healthier environment for ourselves and future generations.

Question 31. What is the main idea of the reading passage?
A. Pollution has no impact on the environment.
B. Pollution and its effects are major environmental concerns.
C. Public transportation is the only solution to pollution.
D. Individuals do not contribute to environmental problems.
