## Use the drop down list to fill in the missing words.

South Africa is a very {dry/hot} country, so we need to store water in {dams/streams}. A dam is built by placing a {concrete/wooden} wall across a river. The wall holds back the water. When dams are built, plants and animals may lose their {homes/schools}. Dams also affect the natural flow of the {river/road}. The river downstream may become {dry/wet} when little water is released.

## Drag the different provinces and countries into the correct box.

*Gauteng   Free State   Western Cape   Eastern Cape   North West  
Namibia   Limpopo   Mpumalanga   Botswana   KwaZulu-Natal  
Northern Cape*

<i>Highveld</i>	<i>Lowveld</i>
<i>Kalahari Basin</i>	<i>Namaqualand</i>
<i>Great and Little Karoo</i>
